Give a Sick Day—Give A Better Life

A Maggie's Month Campaign

Hi, I'm Maggie! I'm 5 years old and I have a disability called Cerebral Palsy from a brain injury at my birth. I need your help to get a special therapy called Hyperbaric Oxygen Therapy (HBOT).

Because of my brain injury I can't walk, talk, feed myself, or even sit up by myself. HBOT has the potential of helping me walk, talk, and do things that I've never been able to do before, in fact, it's already made a big difference in my abilities. Heck, I know I could even go to college some day and have a family of my own. I want to be ready for that!

HBOT therapy is very expensive and is not covered by insurance. So, in 2010 my mom and dad had an idea that is really fun! They created a special annual fund-raising project called, *Maggie's Month: A Family Philanthropy Project*.

The idea is for individuals to work together through Maggie's Month to raise the money to sponsor 1 of my HBOT therapies (\$150). Our annual goal is to get 80 dives sponsored.

How does **Give a Sick Day—Give a Better Life** work? Donate (1) one of your sick days, and along with your coworkers you can make a HUGE impact on the success of Maggie's Month.

My dog Ody Lew is really grateful for your participation, because he really wants me to be able to scratch his belly. Thank you for helping me.

Love, Maggie (and Ody Lew)
